

FREIGHT, FORWARDED. ONLINE.

A new website for MKY Global Forwarding that earns trust, captures quote requests and shows every shipment.

THE SITE TODAY

THREE PROBLEMS COST MKY ENQUIRIES

01 · CRITICAL

TRUST

Placeholder team and testimonials. No accreditations or numbers.

02 · CRITICAL

CONVERSION

No quote form, no contact page, buttons that go to the wrong page.

03 · HIGH

VISIBILITY

"My WordPress Blog" in Google, generic copy, English only.

TRUST

THE PEOPLE ON THE SITE AREN'T REAL

Shippers check a forwarder before handing over cargo. One reverse image search and the credibility is gone.

4

stock-photo "team members" with social links that go nowhere

2

testimonials from different "clients" using the same photo

Quick fix this week: remove them from the current site before the redesign launches

CONVERSION

0

ways to request a quote on the current site

The site promises	It delivers
Competitive rates	No quote route
Real-time tracking	No tracking page
Dedicated service	Email in footer
Discover Services	Links to About

For a forwarder, the quote request is the most important action on the website

GOALS

WHAT THE NEW SITE HAS TO ACHIEVE

Goal	How we measure it
More quote requests	Quote form submissions per month (today: zero)
Faster quoting	Requests arrive with mode, route, weight and dimensions
Credibility	No placeholder content; real team, clients, accreditations
Found in search	Ranking for "freight forwarder Kraków", "spedycja Kraków"
Fewer status calls	Tracking page use once real data is connected

Analytics set up at launch so we can report these monthly

THE SOLUTION

A LOGISTICS PLATFORM, NOT A BROCHURE

Quick estimate

Chargeable weight and container suggestion on the homepage

4-step quote form

Everything needed to price a job, emailed with a reference

Shipment tracking

By reference, AWB, B/L or container number

Service pages

Air, ocean, road and customs, with documents and inclusions

Freight tools

CBM, container check and Incoterms explorer

SEO and EN / PL

Proper metadata, sitemap, structured data, Polish switch

All of this is built and running in the preview

QUOTE REQUEST

FOUR STEPS. EVERYTHING NEEDED TO PRICE THE JOB.

01

Mode

Air, sea or road, Incoterm, customs needed

02

Route

Pickup, delivery, ready date, service level

03

Cargo

Goods, pieces, weight, dimensions, dangerous goods

04

Contact

Sent to the team with a reference like MKY-Q-261005-X7KD

TRACKING AND TOOLS

SEE IT MOVE. EVERY MILESTONE.

Customers check status themselves instead of calling. Container numbers are validated with the ISO 6346 check digit, so typos get a clear message.

MKY-DEMO-001 · example

In transit

KRK

TEM

- Vessel departed · Gdańsk
- **Transshipment · Algeciras (now)**
- Arrival · Tema

Demo data today · connects to MKY's system or a carrier API in Phase 2

DESIGN DIRECTION

CINEMATIC, PRECISE, ENTERPRISE-READY

Graphite

Navy

Copper

Teal

Copper for actions, teal only for live data like routes and status.

BOLD HEADLINES

Clean, readable body text for forms and detail.

MONO DATA · KRK → TEM · 40' HC

Ready for MKY's logo and own photography of real shipments

HOW IT'S BUILT

FAST, LOW MAINTENANCE, OWNED BY MKY

Next.js 16, TypeScript, Tailwind
Modern, widely supported stack

No plugins to patch
Unlike WordPress, nothing to update weekly

Content in one file
A CMS can be added in Phase 2

ROADMAP

LAUNCH FAST, THEN GROW

PHASE 0 · 1 DAY

Quick fixes

Remove placeholder people, fix site name and links on the current site

PHASE 1 · 2 TO 3 WEEKS

Launch

New site with real content, email delivery, analytics, privacy policy, live domain

PHASE 2 · 4 TO 6 WEEKS

Grow

Full Polish site, CMS, real tracking data, quote dashboard

PHASE 3 · ONGOING

Optimise

SEO guides, conversion tracking, customer document portal

Phase 1 timing starts once MKY's content is received · estimates

WHAT I NEED

REAL CONTENT MAKES IT REAL

Every placeholder in the preview is marked in orange, so nothing fake goes live.

Logo files (SVG)

Team names and photos

1 to 3 client testimonials

Accreditations held

Key numbers and core lanes

Office hours, NIP / KRS

Quote inbox and DNS access

Tracking approach decision

NEXT STEPS

LET'S GET MKY'S CARGO MOVING ONLINE.

1. Walk through the live
preview together

2. Agree Phase 1 scope and
content owners

3. Set up MKY's GitHub repo and
preview URL
